Re: Repair completion report

Dear customers,

Thank you for your usual order for our products and services.

We formerly informed that two of our DNA synthesizers broke down, and now are pleased to announce that the repair of these machines had been completed. We apologize that it took much more time than we planned in the beginning

As we have changed the manufacturing system after the repair, we are afraid that we may possibly ask you some delays in your turnaround date or arrival time for your ordered products depending on the ordering quantity for a while. Thank you very much for your patience and understanding.

Again, we sincerely apologize for your inconvenience that had been caused by this trouble for such long time.

Sincerely yours,
Yukio Mizutani, CEO

Hokkaido System Science Co., Ltd.
